

# Sriram Cherukuri

## Software Developer

Backend-focused Java Developer with 6+ years of experience in designing, developing, and modernizing enterprise-grade applications using Java 8/17, Spring Boot, Spring MVC, Spring Data JPA, Hibernate, Microservices, REST APIs, and event-driven architectures. Experienced in building scalable, high-performance backend systems leveraging Kafka, Apache Camel, ActiveMQ, Docker, Kubernetes, and AWS. Proven expertise in migrating legacy applications to modern microservices, optimizing system performance, implementing secure integrations, and delivering reliable, resilient solutions for complex business workflows. Strong collaborator with experience in client interactions, solution design, and end-to-end software delivery

## WORK EXPERIENCE

### Product engineer

IFS Softeon

12/2023 - Present,

Chennai, india

#### Achievements/Tasks

Designed and delivered end-to-end **WMS backend functionalities** using **Java, Apache Camel, and enterprise messaging systems**, enabling reliable workflow automation and integration.

Led modernization of the core platform by **upgrading Java 8 to Java 17**, improving application performance, code maintainability, and long-term scalability.

Designed and deployed multiple **containerized microservices** for WMS modules, seamlessly connected through **Kafka and ActiveMQ** brokers to enable scalable, event-driven communication, high-throughput data exchange, and resilient distributed workflows.

Implemented secure, production-grade **Kafka integrations** with **SASL/SSL/TLS**, and developed robust polling services, data transformation pipelines, and message-driven processing flows.

Collaborated with clients and internal teams to gather requirements, design solutions, and deliver new features while supporting **technical leadership and release-cycle coordination**.

### Programmer Analyst

Excelacom Technologies

10/2020 - 11/2023,

Chennai, india

#### Achievements/Tasks

Led major product modernization initiatives, including upgrades **from Spring 3 to Spring 5, Java 1.7 to 1.8**, and migration from Spring MVC monolith to **Microservices** with Spring Boot (3.1.2) and Java 17.

Designed and delivered key backend enhancements by converting Jersey services to Spring **REST APIs**, implementing report compression and SFTP scheduler integrations, and enabling WebSocket-based communication.

Improved platform quality and reliability through performance and security defect resolution (SonarQube), PostgreSQL integration, SQL script development (Oracle/PostgreSQL), and multi-server deployments on JBoss, WebLogic, and Apache Tomcat.

Contributed across the full delivery lifecycle with HLD/LLD preparation, feature development, UI technology upgrades (jQuery, Bootstrap 4, ExtJS), QA/audit coordination, and direct collaboration with clients, R&D, and support teams.

## SKILLS

**Backend Development** : Java, Spring Boot, Microservices, REST APIs ,Spring MVC

**Enterprise Integration** : Kafka, RabbitMQ, Apache Camel, Webhooks

**Database Management** : Oracle, PostgreSQL, SQL, ElasticSearch

**DevOps & Deployment** : Docker, Jenkins, CI/CD, SonarQube ,Apache Tomcat

**Development Tools** : IntelliJ IDEA, Postman, Mockoon, Jira

**Testing & Quality** : JUnit, Sonar Qube ,Performance tuning, Security defect resolution

**Cloud** : AWS (EC2, S3)

**Methodologies**: Agile, Scrum, SDLC, Sprint Planning, Code Reviews

## EDUCATION

### Computer science and engineering

Sathyabama University, Chennai

06/2016 - 05/2020

## ACHIEVEMENTS

Received the Rising Star Award at Excelacom Technologies in recognition of outstanding performance and contributions.

## LANGUAGES

English , Telugu , Tamil
