

Muskan Maheswari

Noida, UP |  +91 7742327524  maheshwarimuskan121@gmail.com  [Muskan-Maheswari](#)

Profile Summary

Java Backend Engineer near to 4 years of experience building scalable, highly available, and fault-tolerant distributed systems using Java and Spring Boot. Specializes in high-throughput microservices and event-driven pipelines for payment and subscription platforms, processing 1M+ transactions/day across 15+ integrated gateways. Strong production ownership with a proven track record of modernizing systems and delivering measurable impact — 15–18% subscription growth, 40% reduction in transaction failures, and 80% improvement in support resolution time.

Technical Skills

Languages and Databases: Java, SQL, MySQL, PostgreSQL, MongoDB, C, C++

Frameworks and Tools: Spring Boot, Spring MVC, Spring Reactive, Spring JPA, Hibernate, JDBC, Kafka, gRPC, Redis, Microservices, Event-Driven Architecture, REST API, Javascript, React.js, Multithreading, CI/CD, Maven, Gradle

AI & Developer Productivity: MCP, JSON-RPC 2.0, Agentic AI Workflows, Prompt Engineering, Claude Sonnet 4.5, Github Copilot (GPT-5)

Other Skills: OOPs, LLD, Agile/Scrum, JUnit, Code Reviews, Version Control, AWS, GCP, Git, Linux, Jenkins, Docker, Kubernetes

Experience

The Indian Express

Software Engineer

Aug 2024 – Present

Noida, UP

- Architected subscription platform for Loksatta and Indian Express, driving a **15–18% increase in digital subscriptions** within the first quarter — built on **15+ Spring Boot microservices** with MySQL and MongoDB handling millions of records at high throughput.
- Integrated **5+ payment gateways** with **99.9% uptime**, processing 2,000+ transactions/day and cutting failure rates by **40%** via robust error handling and retry logic.
- Designed **Kafka event-driven pipelines** for notifications, invoice delivery, alerting, and reporting — enabling real-time downstream processing and decoupled service communication across the subscription platform.
- Engineered a **modular rule engine with 30+ business rules** to automate subscription workflows and enable dynamic A/B testing, boosting conversion rates by **30%**.
- Built a production **MCP (Model Context Protocol) server** in Spring Boot — implemented full **JSON-RPC 2.0 protocol over SSE and HTTP transport**, connected across Ecommerce, Dunning, and Payments services to power Agentic AI workflows.
- Delivered **Bulk Subscription module** with IP-based, IP-range, and domain-based access controls, provisioning access for **8 institutions scaling up to 8–9K users**.
- Developed customer care dashboard for **20+ support agents**, cutting resolution time by **80%** through real-time subscription state visibility.
- Automated CRM pipeline processing **10,000+ events/day** for lead conversion tracking and campaign metrics, directly lifting user engagement and subscription rates by 30%.

Autope Payment Solutions Pvt. Ltd.

Software Engineer

Nov 2022 – Aug 2024

Jaipur, Rajasthan

- Scaled **15+ payment gateways** for the **IRCTC Payment Gateway IPAY** to handle **1M+ transactions/day** with fault-tolerant flows; applied **Reactive Programming (WebClient)** and Kafka-based Event-Driven Architecture, orchestrating 20+ microservices for horizontal scalability.
- Reduced **Tatkal rebooking time from ~30s to under 10s** — a **66% improvement** — via service logic and query optimization.
- Achieved **30–40% lower inter-service latency** on IRCTC by migrating CRM integrations from REST to **gRPC**.
- Added voucher, emi, pay later and wallet payment options to broaden payment flexibility across the platform.
- Set up a full observability stack for IRCTC — **Prometheus metrics, structured logging, distributed tracing** — for production monitoring.
- Delivered RESTful APIs for **DMRC's Momentum 2.0** app enabling secure one-time mandate transactions.

Education and Certifications

JECRC University, Jaipur, Rajasthan | B.Tech in Computer Science Engineering | CGPA: 8.7/10

Aug 2019 – Jul 2023

SRPS School, Kota, Rajasthan | Class XII (CBSE) | 72.2%

Apr 2018 – Mar 2019

MKD Girls School, Bikaner, Rajasthan | Class X | CGPA: 9.8/10 |

Apr 2016 – Mar 2017

Certifications: HackerRank Gold — Java & SQL, C & C++ Course (Jun 2019 - Jul 2019), [Google Cloud Badges](#)

Extracurricular: Vice President, Cultural Club, JECRC (Aug 2021– Jul 2022)

Core Team: Personality Development Club, JU Rhythm, Women Empowerment Camp, Euphoria (Online Fest)
