## PROFESSIONAL SUMMARY

Senior Software Engineer with 10+ years of experience delivering enterprise solutions across **Investment Banking**, **Counterparty Credit Risk (CCR)**, and **Core Payment Processing**. Skilled in modernizing legacy systems, building scalable microservices and cloud-native applications, and leveraging **GenAI & Agentic AI** tools to accelerate development and enhance productivity. Strong track record of designing resilient systems, automating risk controls, and delivering business value for global financial services clients.

## KEY ACHIEVEMENTS

Automated credit risk monitoring with EWS, reducing manual effort by ~40%.

Modernized payments platform used for high-volume transactions across global banks.

Engineered scalable solutions improving application performance by ~30%.

Leveraged GenAI tools (Claude, Copilot) to improve development productivity and quality.

## EXPERIENCE

### Senior Associate – Credit Risk

JPMorgan Chase & Co.

Dec 2021 – Present

Bangalore, India

- **Project Name:** Rapid Exposure Drill (RED).
- **Core Focus:** Engineered an Early Warning System (EWS) to monitor **Counterparty Credit Risk**; built automated controllers to immediately enforce intraday credit restrictions, trade freezes, and settlement holds upon client distress detection. Leveraged **GenAI-assisted development** practices to accelerate delivery and improve code quality.

### Associate Consultant

Atos Global IT Solutions/WGS

Jan 2019 – Nov 2021

Bangalore, India

- **Project Name:** Payments 2.0 (Worldline).
- **Core Focus:** Payments 2.0 is the future service portfolio and application platform for Equens Worldline Payments Processing (eWL) considering the market expectations and requirements of banks and their customers. Payments 2.0 extends the current back-office-focused value chain towards middle- and front-office payments functionalities of banks to cover the entire life cycle of all types of payments in a common way.

### Software Engineer

Infotech Global India Pvt Ltd

Jul 2015 – Dec 2018

Bangalore, India

- **Project Name:** Care Management – PRO.
- **Core Focus:** These solutions enable and facilitate complex case management, disease management, wellness and chronic care programs, and transition of care.
